## List of Mastermind Groups

### Background:

A “mastermind group” or “peer-to-peer advisory board” is made up of a collection of business owners who meet regularly (usually monthly) to act as each other’s board of advisors.

Most mastermind groups are moderated by a group chair who usually has a mandate to bring in outside speakers. Some of our most successful advisors offer to present to mastermind groups in their area as their primary source of new business.

This list includes some of the largest mastermind organizations. To find a group near you, simply do an internet search for the name of the group and your city.
